Art Unit: 1616

Claims 42, 44-52, 55, 61-87 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for R1 as a substituted and unsubstituted straight, branched, cyclic, or arylene organic groups, does not reasonably provide enablement for bridged carbon rings or heterocyclics. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. On page 15 applicants disclose the above cited R1 groups. No others are specified.

Claims 42, 44-52, 55, 57-87 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 42 "organic group" is vague; which one? One of ordinary skill could not ascertain the metes and bounds of the claim.

Claims 42, 44-52, 55, 57-87 are rejected. Claim 56 is objected to as dependent upon a rejected claim.

The TDs filed 7/26/06 have been approved.
